PROJECTS

HISTORY

MBSA Consulting is a South African company established in 1999 with the vision to provide top notch Civil, Structural, Electrical and Project Management Engineering services to the entire spectrum, from underdeveloped towns and villages to the metropolitan areas and corporates of the continent. Since then, we have tackled scores of multi-million rand projects that have uplifted communities and created essential resources for them.

We foster an attitude of growth and development – not only in our projects and services, but also within our team. This creates a space where our professionals creatively craft cutting-edge solutions for each of our esteemed clients.

We Have Tackled Scores Of Multi-Million Rand Projects That Have Uplifted Communities And Created Essential Resources For Them.

ABOUT MBSA CONSULTING

Africa's infrastructure is built from more than concrete and steel. It has been built on generations of people that have proactively pursued and celebrated change. MBSA Consulting knows that engineering is as much about people and bringing their vision to life as it is about materials and expertise.

As a leading multi-disciplinary consulting engineering firm, MBSA Consulting is proud to be completely owned and managed by black professionals. In fact, we are one of the largest engineering firms owned by 100% black individuals in South Africa.

When you partner with MBSA Consulting, you are assured of world-class service and expertise. We are about:

- Superior delivery.
- Maintaining and growing our already-impressive footprint in the major metropolises of the continent.
- Fostering our respected reputation.
- Using our valuable expertise and resources to serve the unique needs and requirements of each of our clients.

MBSA Consulting is the firm of choice for all Civil, Structural, Electrical and Project Management engineering

WHEN YOU PARTNER WITH
MBSA CONSULTING, YOU ARE
ASSURED OF WORLD-CLASS
SERVICE AND EXPERTISE.

VISION AND MISSION STATEMENTS

VISION

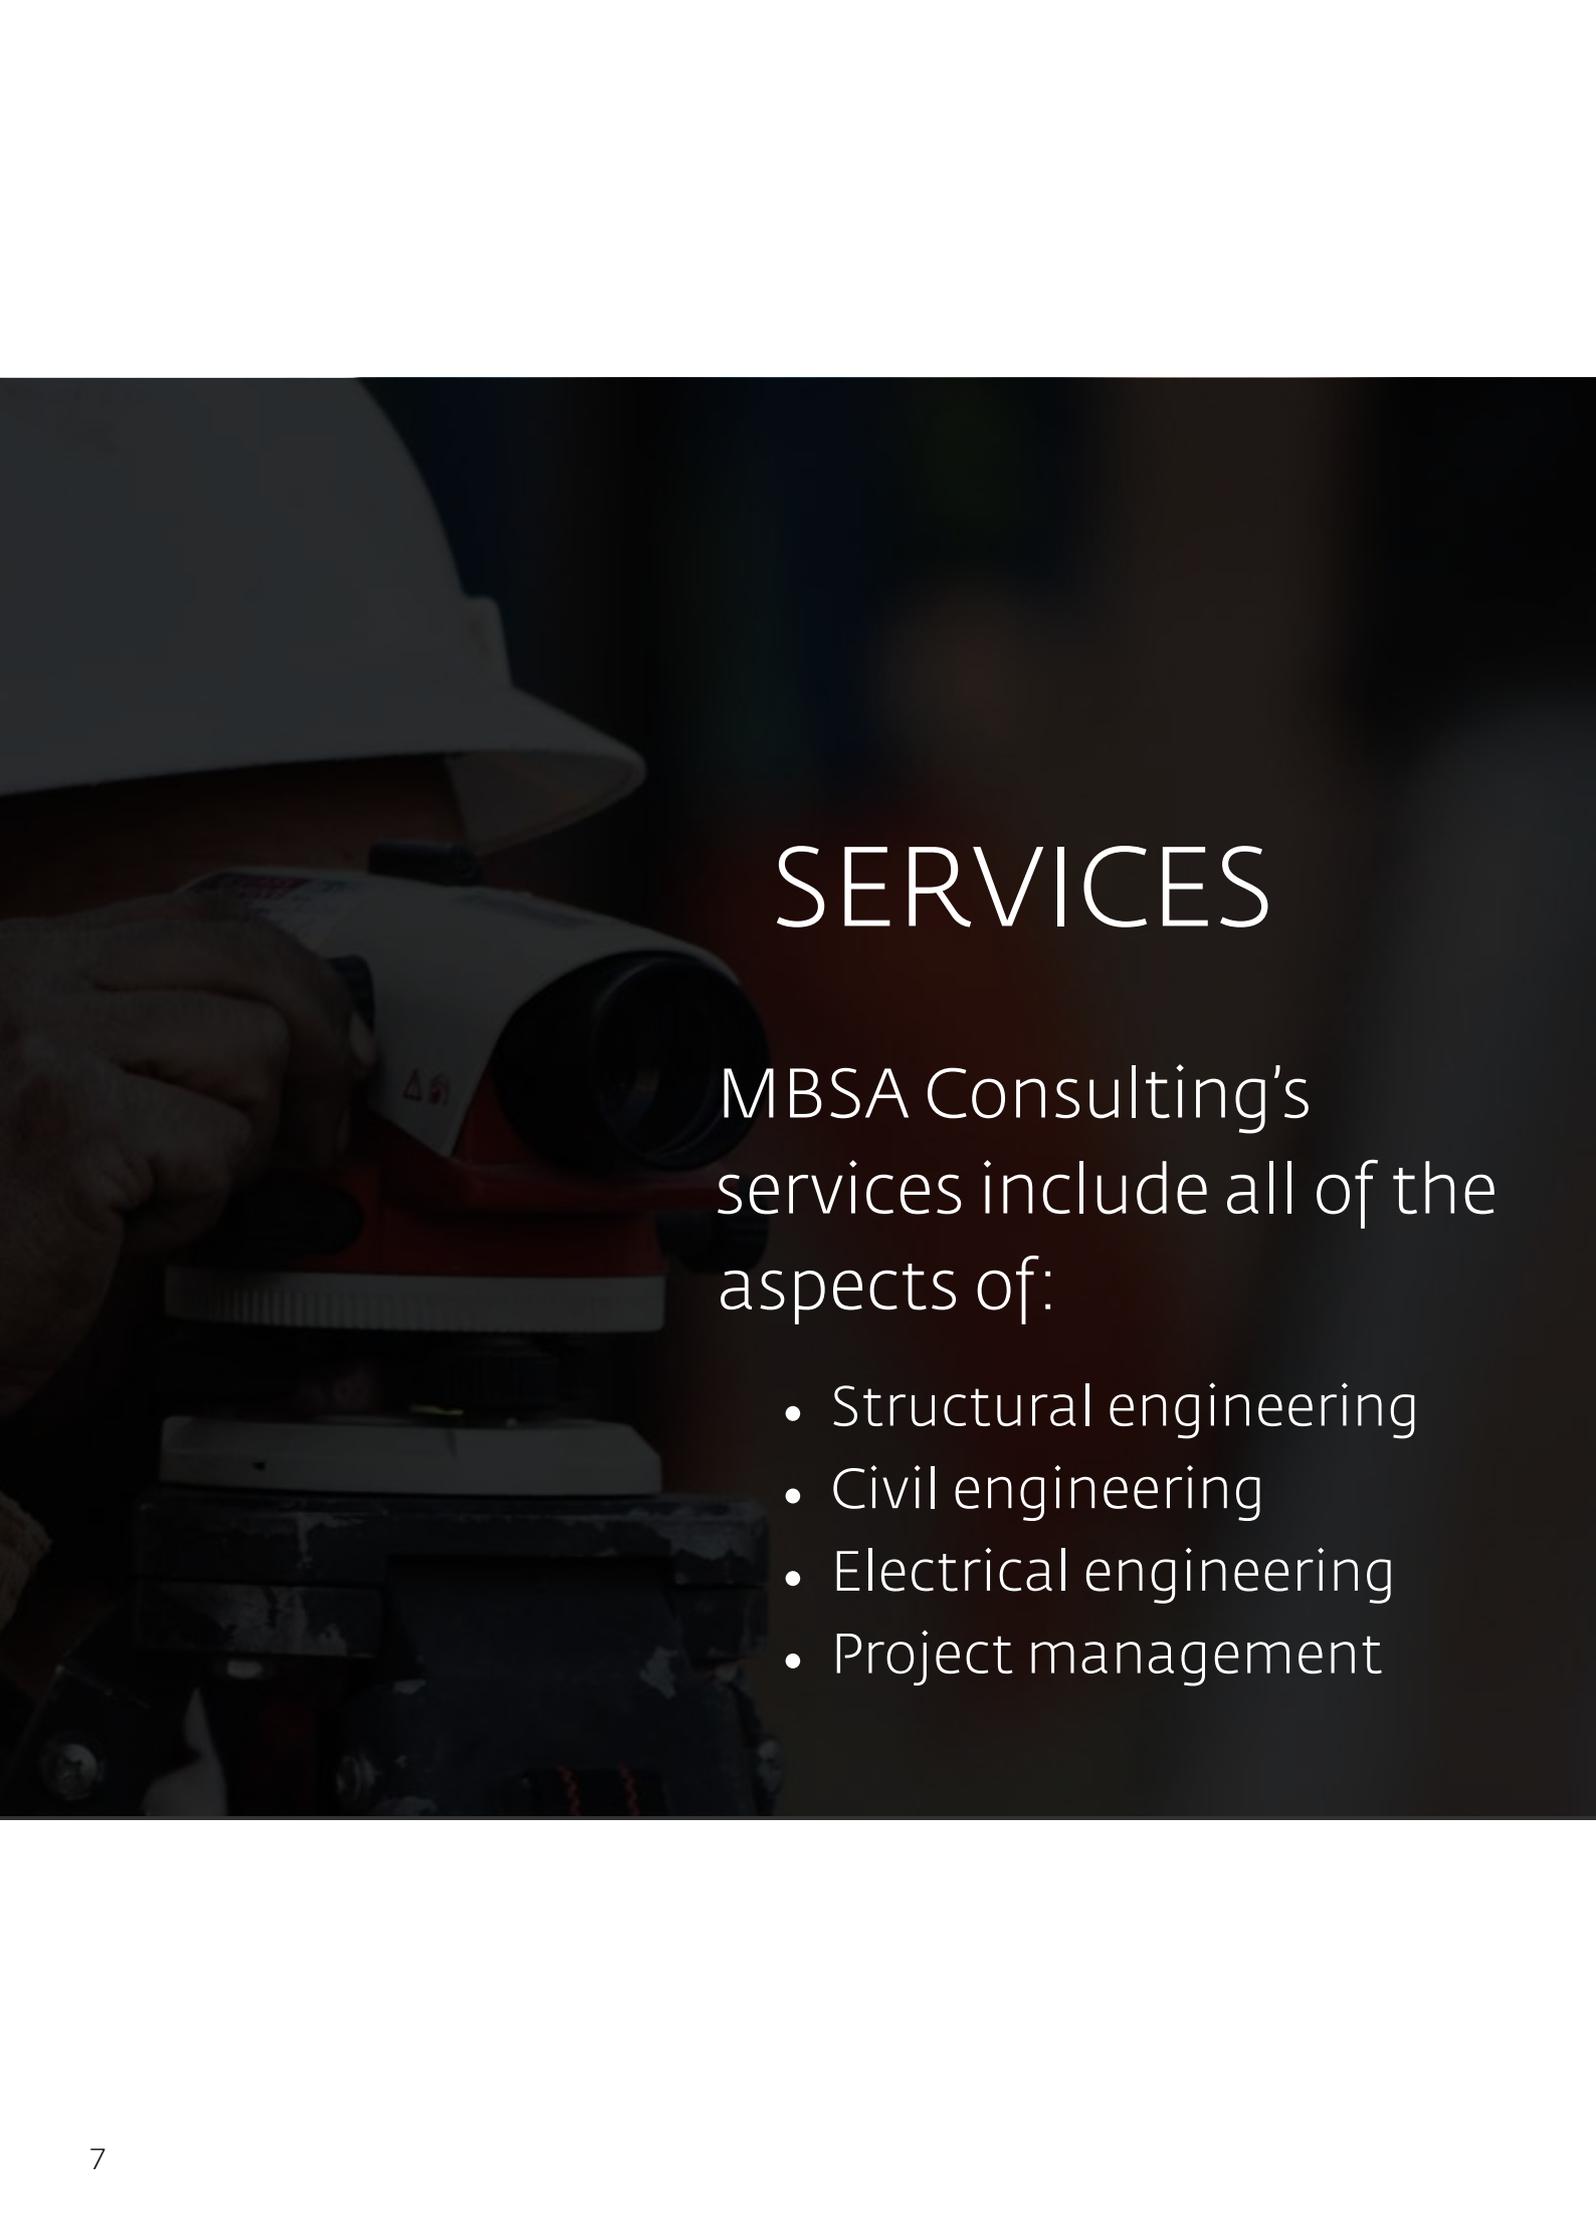

To be the consulting engineering firm that is obsessed with excellence.

MISSION

- We create a culture of efficiency and effectiveness through our passion for excellence
- We maintain the highest standards of ethical behaviour and professional integrity
- People remain the most valuable asset of the firm
- To exceed our customers' expectations in quality and delivery through continuous improvement and customer interaction.
- To create a culture where employees understand Health and Safety as a way of life.
- To continually improve the effectiveness through Continuous Professional Development and Quality Management Systems.

VALUES

- Desire to develop (Self development)
- Integrity
- Professional

SERVICES

MBSA Consulting's services include all of the aspects of:

- Structural engineering
- Civil engineering
- Electrical engineering
- Project management

WHY MBSA CONSULTING

MBSA Consulting is a forward-thinking South African company that is set apart from our competitors. We have a dynamic team that is committed to progressive engineering solutions for rural and urban projects of all sizes.

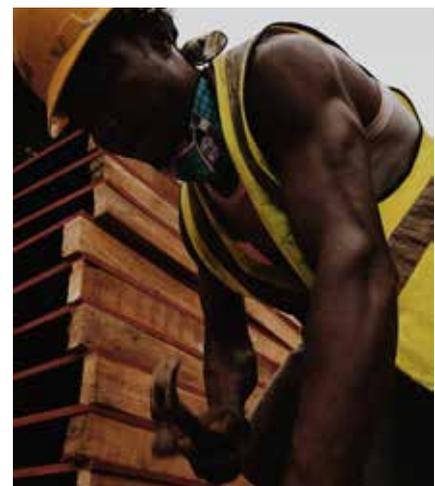

What makes MBSA Consulting the best choice?

- We are completely owned and managed by black professionals.
- Our reputation for excellent service precedes us.
- MBSA Consulting is a B-BBEE Level 1 Contributor.
- We have been providing superior service since 1999. So, we are well established and have extensive experience.

Our Skills and Experience

Our team is made up of progressive professionals with impressive qualifications. Added to this, they are backed by decades of experience in Civil, Structural, Electrical and Project Management. We are skilled and registered with the respective councils for professionally registered persons as:

- Engineers
- Technologists
- Technicians
- Construction Project Managers

MBSA and the Community

MBSA Consulting is an integral part of creating an infrastructure for communities, small and large. We oversee the building of the roads that take them home, the schools that educate them, the hospitals that treat them, and above all we provide electricity to all of these facilities thereby providing a safe

and convenient lifestyle for all.

As part of our Corporate Social Responsibility (CSR) initiative, we contribute to a number of B-BBEE beneficiaries that ensure that all recipients of the contributions are black and that the funds are used for the benefit of the community.

PRINCIPALS

MBSA Consulting comprises of the following high-calibre professionals whose experience, expertise and diversity creates immense synergy for the company:

Mr. Kwezi Luvo Mpuhlu

MBA, B. Tech Civil Eng, ND Civil Eng, Post Grad. in Business Management, MSAICE, MSABTACO

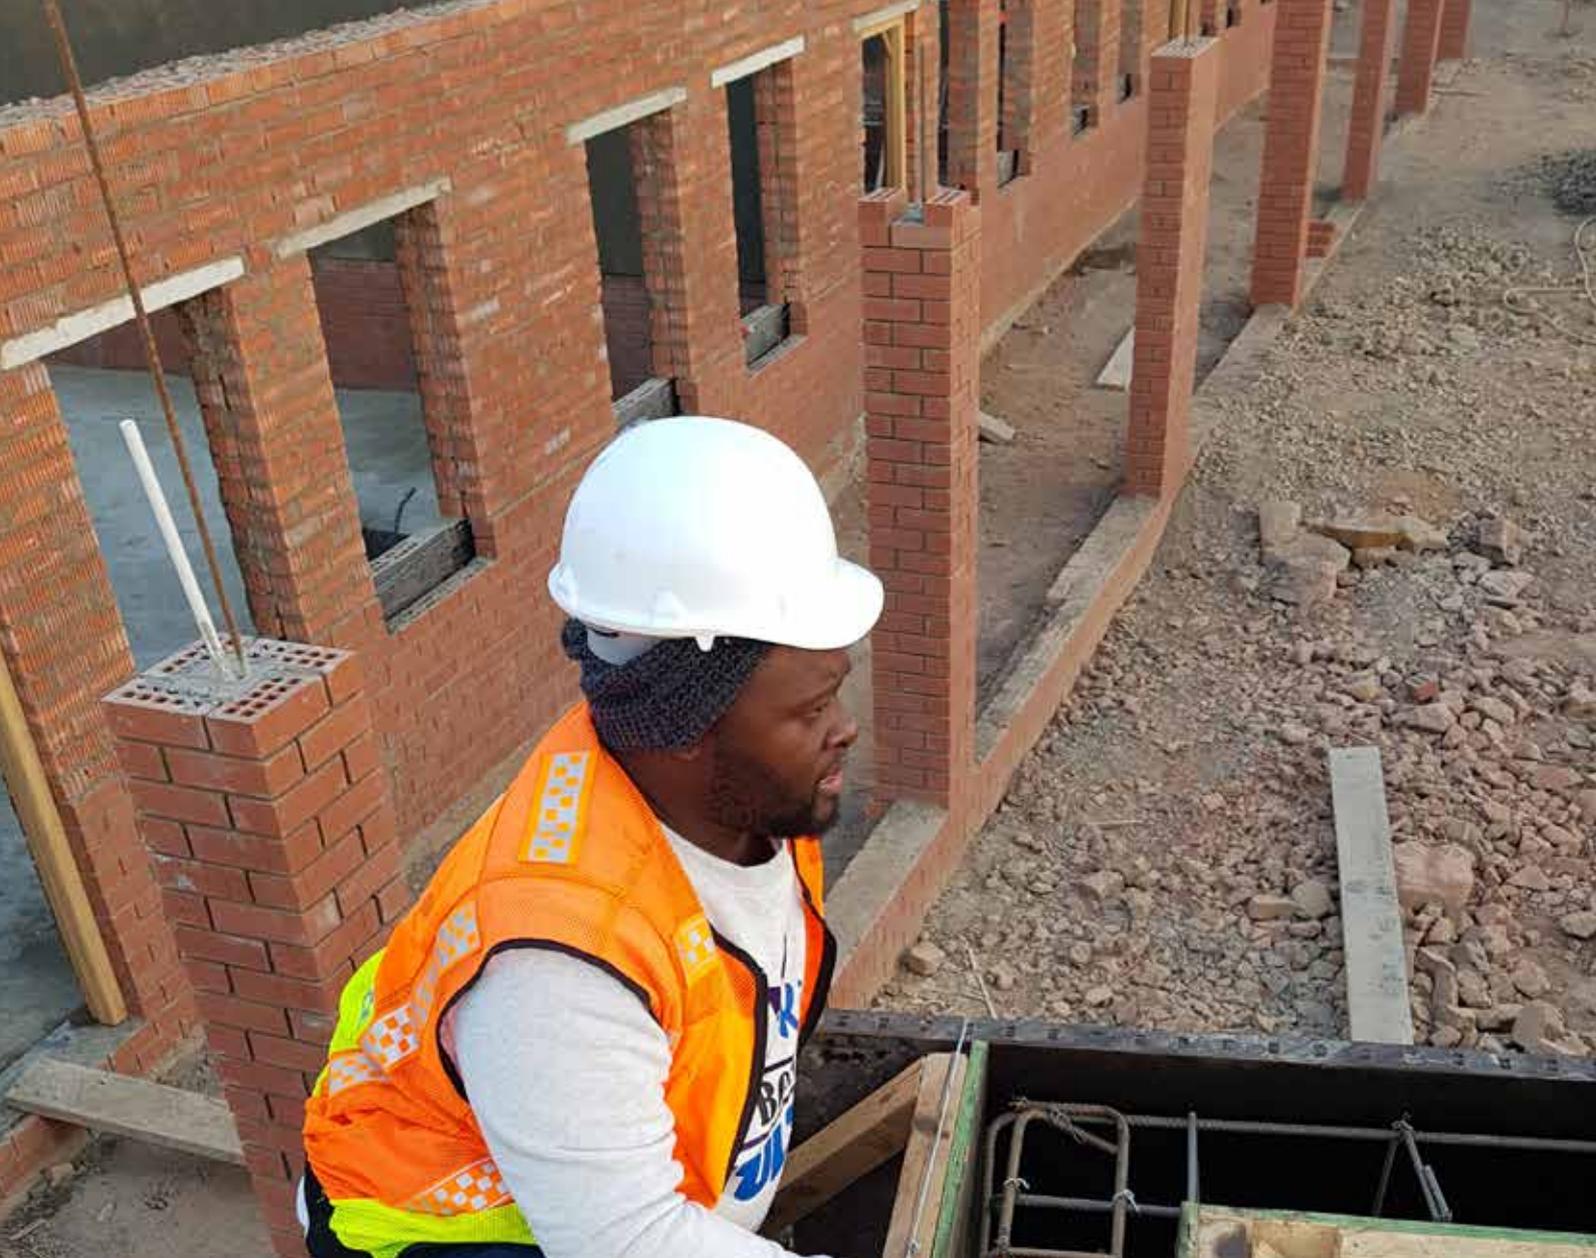

Dr Ncedo Mkondweni

D.Tech, M.Tech Elec Eng, B.Tech Elec Eng, Pr. Tech Eng, PrCPM

Mr. Mlibo P Sikrweqe

(Diploma Project Management), NQF 7, NQF 5

SOCIO-ECONOMIC DEVELOPMENT

As part of MBSA Consulting's socio-economic development initiative, we contributed funds to the following beneficiaries:

Cape Peninsula University of Technology
Mdantsane Hotel
Clarkebury SS School - Careers Exhibition
Zulu Careers Exhibition
The Methodist Church of Southern Africa
Ndabakazi Soccer Tournament
MBSA Consulting Virtual Marathon
Real Gijimas Ultra Marathon

CIVIL ENGINEERING

WATER AND SANITATION

- Bulk water and sanitation design
- Water reticulation and sanitation
- Waste water treatment works
- Sewer reticulation and pump stations
- Rural sanitation
- School sanitation
- Design of pump stations, bulk water systems, town infrastructure, water and sewer reticulation, and rural sanitation.

TRANSPORTATION

- Design and rehabilitation of urban and rural roads, freeways and pavements
- Road design and rehabilitation – freeway, urban and rural
- Management of rural road systems and storm water
- Transportation planning and engineering
- Transportation studies
- Road and pavement design

MBSA Consulting is an **ISO 9001:2015** accredited multi-disciplinary firm. This means that we offer an array of services under the umbrella of engineering.

STRUCTURAL ENGINEERING

- Structural and bridge engineering
- Bridge culvert design
- Structural steel design
- Reinforced concrete and pre-stressed concrete
- Building engineering services to ensure that all services are fully integrated at the architecture and building stages.

ENGINEERING PROJECT MANAGEMENT

- Project and construction management
- Management of labour-intensive control for rural projects
- Solid waste management
- Partnering with government for mentoring emerging contracts
- Solid waste management

ELECTRICAL ENGINEERING AND PROJECT MANAGEMENT

ELECTRICAL ENGINEERING

From inception to closure, MBSA Consulting manages every aspect of your project to ensure that it meets or exceeds your expectations as smoothly and efficiently as possible.

- Electrification, design and reticulation.
- Sub-station design.
- Design and project management of high- and medium-voltage power line distribution systems.
- Building services.
- Clerks of works services.
- Telemetry services, instrumentation and control design.

ENGINEERING PROJECT MANAGEMENT

From inception to closure, MBSA Consulting manages every aspect of your project to ensure that it meets or exceeds your expectations as smoothly and efficiently as possible.

To do this, we:

- Establish objectives and define the scope of each job.
- Organise and supply the resources necessary.
- Manage risk in a structured, safe way.
- Remain within the confines of your budget.
- Ensure mutually beneficial relationships between the various companies and individuals involved in bringing your project to life.

With MBSA Consulting's experience and insights into electrical engineering, your unique project can only be a fantastic success.

PROJECTS

We provided support in the preparation, planning, budgeting, design, construction, and close-out of new clinics in the Eastern Cape. For the Coega Development Corporation, we provided our consulting services to this clinic. This included providing the full multi-disciplinary technical programme and our project implementation expertise.

This included:

DBSA SCHOOLS EASTERN CAPE

CLIENT: DEVELOPMENT BANK OF S.A
VALUE: R354 MILLION

MBSA handled the detailed planning and preparation, procurement, budgeting, design, construction, rehabilitation and upgrade of the facilities at a cluster of schools in the Eastern Cape as part of the official Schools Infrastructure Programme. This included:

- Preparing and submitting all relevant documentation.
- Cost control.
- Maintaining strong and effective oversight over the contractors and coordinating the activities of service providers at all project stages to ensure that the relevant procedural and design requirements and milestone dates are met within budget.
- Ensuring that all relevant construction regulations, legislation and audit compliance are complied with during the lifecycle of the GSP.
- Devising a project tracking system and reporting requirements for each project, and closely monitoring progress at all stages.
- Implementing a skills transfer plan to local community members in line with the objectives of the programme.
- Developing a Project Management Plan encompassing all the subsidiary plans.

NGCIZELA CLINIC WILLOWVALE

CLIENT: DEPARTMENT OF HEALTH
VALUE: R25.5 MILLION

We provided the full multi-disciplinary technical programme and project implementation expertise of this healthcare facility in the Eastern Cape Province. This comprised the preparation, planning, design, construction, and close-out of new clinics.

MBSA Consulting is an integral part of creating an infrastructure for communities, small and large.

CIVIL ENGINEERING – WATER

KOLOMANE BULK WATER AMATHOLE DISTRICT MUNICIPALITY

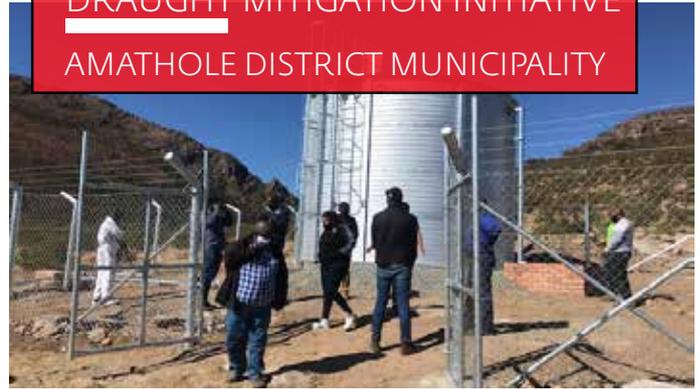

CLIENT: AMATHOLE DISTRICT MUNICIPALITY
VALUE: R15.5MILLION

MBSA Consulting provided professional engineering services for the Kolomane Bulk Water Supply. This included the investigation, design and implementation of water supply to seven villages in the Eastern Cape.

This also involved the construction of the rising main, construction of spring capture boxes, drilling and equipping of boreholes with wind turbines, and equipping of springs with a solar pump.

DRAUGHT MITIGATION INITIATIVE AMATHOLE DISTRICT MUNICIPALITY

CLIENT: AMATHOLE DISTRICT MUNICIPALITY
VALUE: R10.5MILLION

MBSA Consulting was appointed by the Amathole District Municipality to provide engineering services for the Drought Mitigation Initiatives in the Amathole District Municipality central region (Amahlathi and Great Kei Local Municipalities). The project entailed:

- The construction of pumping main.
- Reticulation, drilling and equipping of production boreholes.
- Construction of a pump house.
- Construction of a 90kl reservoir.

CIVIL ENGINEERING – ROADS

UGIE LOCATION ROADS EASTERN CAPE

CLIENT: DEPT. OF ROADS AND PUBLIC WORKS
VALUE: R104 MILLION

We were commissioned by the Department of Roads and Public Works in the Eastern Cape to provide professional engineering services to the roads in the Joe Gqabi District Municipality.

In short, this involved upgrading about 10km of gravel roads to surfaced roads. In addition to the actual surfacing of the road, this project involved blasting and establishing a crushing plant for the borrow pit for all of the building materials of the roads.

UGIE LANGENI ROAD UMTHATHA

CLIENT: DEPT. OF ROADS AND PUBLIC WORKS
VALUE: R519 MILLION

The Eastern Cape Department of Transport commissioned MBSA Consulting to surface about 20km of this road for Phase 3. The construction included:

- Bulk earthworks.
- Road layer works and surfacing.
- Operation of borrow pits and hard rock quarry.
- Major and minor storm water drainage.
- Construction of two new cast in-situ bridges.

CIVIL ENGINEERING – ROADS

MDANTSANE ROADS PHASE 1 - 4 MDANTSANE - EASTERN CAPE

CLIENT: BUFFALO CITY METROPOLITAN MUNICIPALITY
VALUE: R305 MILLION

MBSA Consulting was appointed by the Buffalo City Metropolitan Municipality (BCMM) to undertake the design, contract documentation and construction monitoring for the upgrading of Mdantsane Roads. Similarly, Engineering Advice & Services (Pty) Ltd and Arcus Gibb were appointed to carry out comparable work in Mdantsane Phase 1 and 2 respectively.

The project consists of the upgrading of existing gravel roads of approximately 66km to surfaced roads standards. The project was divided into various Phases. The project brief was to formulate a prioritization methodology which ensures a fair,

transparent and cost effective process for the upgrading of gravel roads.

The brief further called for improvements to existing stormwater drainage and installation of new stormwater infrastructure as well as traffic calming measures and sidewalks where necessary. The design concept created a focus on creating an optimally designed surfaced roads network, incorporating sidewalks and consideration of access to properties. The design concept also focused on the engineering services, how stormwater would be catered for in the existing infrastructure, road surfacing and layerworks options. Phase 1, 2 and 3 (i.e. 3.5, 10 and 20km respectively) have been completed where the existing gravel roads were improved to surfaced standards and this improved the quality of life by providing better infrastructure to previously disadvantaged communities and creating job opportunities."

DESCRIPTION OF ACTUAL SERVICES PROVIDED BY THE FIRM

- Preparation of feasibility, design, construction supervision and close out report
- Project systems documentation;
- Community liaison and quality of control of Contractor's Works Administration & financial control of resources procurement;
- Targeted Sub-Contractor training and supervision including materials, labour, transport & training services;
- Institutional development
- Monitoring and mentorship of construction and operational;
- Project design for community empowerment phases of road infrastructure development."

ELECTRICAL ENGINEERING

ELECTRIFICATION CAPITAL PROJECTS EASTERN CAPE

CLIENT: MQANDULI LOCAL MUNICIPALITY
VALUE: R20 MILLION

Our client, Eskom SoC Eastern Cape Operating Unity (ECOU), commissioned us to handle this project. It comprised the design of medium-voltage (MV) and low-voltage (LV) power distribution systems for the electrical reticulation of Intsika Yethu Local Municipality villages.

It was for the reticulation and connection of 2026 connections as part of Mqanduli Phase 5 (Wards 26, 27 & 29) electrification project. It required 72km of link line that had to be designed and upgraded as part of the scope of works. MBSA was required to submit full preliminary and follow-up designs for each village, with complete land development packages (spanning sheets, EMP, approvals/licenses, and so on).

INDUSTRY MEMBERSHIP

STATUTORY BODIES

A sepia-toned photograph of a winding asphalt road that curves through a hazy, mountainous landscape. The road has double white lines and leads the eye into the distance. The background shows rolling hills and some trees, all under a soft, overcast sky. The entire image is framed by a thin white border.
